

Billingshurst Cricket Club Guidelines on Changing Rooms and Showering Facilities as directed by the ECB

- Adults must not change or shower at the same time using the same facility as children- if the same changing room is used then they must have different times.
- If adults and children (i.e. all persons under the age of 18) need to share a changing facility, they must do at different times.
- Mixed gender teams must have access to separate male and female changing rooms or different times.
- Due to the risks of inappropriate photography or filming, mobile phones must not be used in changing rooms.

If children are uncomfortable changing or showering at Billingshurst Cricket Club, no pressure should be placed on them to do so.
